

NOBODY KNOWS LEGAL PORTRAITS LIKE GITTINGS.

What does our tagline “**Consistent. Imaginative. Global.**” have to do with legal portraiture? Everything.

Consistency throughout your attorney portraits is essential if your firm is to be viewed as a integrated team. The portraits of your new hires should perfectly complement those of your partners and associates. Whether you’re a small boutique practice or an international firm with offices around the globe, working with one designated studio achieves a cohesive, polished look that sends a powerful message to prospects and clients.

Imagination is what makes portraits impressive and memorable. Research has shown that the portrait is the single most impactful element of an attorney’s bio. The portraits on your website should be as distinctive as the attorneys they represent. We work closely with your marketing team to design a portrait style that accurately reflects your firm’s message and culture.

Global availability throughout the country and around the world means that we come to you—no matter where you are. Our photographers regularly travel to all major metropolitan cities and have worked in more than 30 countries to provide law firms with distinctive portraits that have become part of their brand.

Here’s what our clients are saying:

“It was a great benefit that you coordinated the shoots in each office and provided the online portal for access.”

“Your system was turnkey and very easy to use.”

“I appreciate the exceptional level of service we received.”

More and more of America’s leading law firms are choosing Gittings for their legal portrait needs.

Now you know why.
